

Licensing Number 12321

Licence Holder Dr Christian Schneider

Licensed Premises National Institute for Biological Standards and Control
Blanche Lane
South Mimms
Potters Bar
Hertfordshire
EN6 3QG

Designated Individual Dr Adrian Bristow

This licence is granted under Section 16 (2) (e) (ii) of the Human Tissue Act 2004.

This licence authorises the storage of relevant material which has come from a human body for use for the following scheduled purposes:

- Determining the cause of death
- Establishing after a person's death the efficacy of any drug or other treatment administered to him
- Obtaining scientific or medical information about a living or deceased person which may be relevant to any other person (including a future person)
- Public display
- Research in connection with disorders, or the functioning, of the human body
- Clinical audit
- Education or training relating to human health
- Performance assessment
- Public health monitoring
- Quality assurance

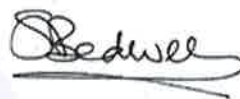

The licensed activity should be carried on only at the licensed premises specified above, and under the supervision of the Designated Individual.

This licence is subject to the conditions set out in the Annexes accompanying this licence as may be subsequently varied pursuant to an application under paragraph 8 of Schedule 3 to the Human Tissue Act 2004.

This licence is valid from the date specified below and will remain in force until revoked.

Dear Dr Bristow

Licence Grant

I am pleased to enclose the formal licence certificate duly signed showing the variation to your licence as requested.

The grant of this licence is based upon the information submitted by you within the licence application. The Human Tissue Authority (HTA) may under paragraph 7(2)(a) of Schedule 3 of the Human Tissue Act 2004 (HT Act), subsequently revoke the enclosed licence if it is satisfied that any information given for the purposes of the application was in any material respect false and misleading.

It is a condition of this licence (and all licences) that you inform the HTA where there is any material change in circumstances that impact on the licence. For example, this would include any proposed change of the Designated Individual or Licence Holder, any significant alteration to or relocation of the premises where the licensed activity occurs. In most circumstances the HTA will require you to make an application to vary the licence, prior to issuing any subsequent variation of this licence. Copies of the application forms for variations to licences are available on the HTA website.

I would remind you that one of the standard conditions of this licence is that a copy of the Certificate (first page of the licence) describing the activity authorised must be displayed at the premises where the activity will take place in a position or positions in which it can easily be read by persons who are involved in carrying out the licensed activity or by members of the general public. No use of the HTA brand or logo, other than the display of this Certificate, is permitted by your establishment.

If you have any queries concerning this licence, please do not hesitate to contact the Regulation Directorate via the telephone number or email address shown at the top of this letter.

Yours sincerely

Dr Christopher Birkett
Head of Regulation
