

## Key publications – Monoclonal antibodies

Sandra Prior, Simon E. Hufton, Bernard Fox, Thomas Dougall, Peter Rigsby, Adrian Bristow and Participants of the collaborative study (2017) [International Standards for Monoclonal Antibodies to support pre- and post-marketing product consistency: Evaluation of a candidate International Standard for the bioactivities of Rituximab](#). *MAbs*. 6:1-14

Gaiotto T and Hufton S.E (2016) [Cross-neutralising nanobodies bind to a conserved pocket in the hemagglutinin stem region identified using yeast display and deep mutational scanning](#). *PLoS One*.11(10)

Hufton SE, Risley P, Ball C, Major D, Engelhardt OG and Poole S (2014) [The breadth of cross sub-type neutralisation activity of a single domain antibody to influenza hemagglutinin can be increased by antibody valency](#). *PLoS One*.9(8)

Ball C, Fox B, Hufton S, Sharp G, Poole S, Stebbings R, Eastwood D, Findlay L, Parren PWHI , Thorpe R, Bristow A and Thorpe SJ (2012) [Antibody C region influences TGN1412-like functional activity in vitro](#). *J Immunol*
