DATA SHEET

PRODUCT NAME
Anti-SARS-CoV-2 RBD Omicron-variant specific monoclonal antibody (clone 304)

REPOSITORY REFERENCE
101118-A

LOT NUMBER
OFD

DESCRIPTION
An Omicron RBD/spike-specific mouse monoclonal antibody to SARS-CoV-2 Omicron.

The plasmid expressing the monoclonal antibody was sequenced and transfected in CHO cells for 10-liter scale production. Accelerated stability studies to evaluate the effect of 3 freeze-thaw cycles and exposure to 40°C for 3 days were conducted on the purified antibody. No differences in antibody stability were observed by size exclusion ultraperformance liquid chromatography and capillary electrophoresis SDS under the accelerated conditions studied.

Antibody clone 304 was found to recognise the Omicron SARS-CoV-2 RBD and spike antigens while not detecting Wuhan, Delta, or Gamma variants.

- **PROVIDED**: 200µg (5.01 mg/mL)
- **STORAGE**: -80°C
- **DEPOSITOR**: Jessica White, PATH
- **ADDITIONAL INFORMATION**: Available upon request

**ACKNOWLEDGEMENTS**

Publications should acknowledge the contributor and the Centre for AIDS Reagents (CFAR). Acknowledgments should read: “The Name of Reagent (Repository Number) was obtained from the Centre for AIDS Reagents, NIBSC, UK, thanks to Jessica White, PATH.”

**Other:**
This product is a genetically modified material; it is the responsibility of the end user to seek local biosafety approval for the storage and handling of the material in their workplace.

### Handling:
**CAUTION** - This preparation is not for administration to humans or animals in the human food chain. This preparation is hazardous to health. It should be used and discarded according to your own laboratory’s safety procedures. Such safety procedures should include the wearing of protective clothing, gloves, and avoiding the generation of aerosols.

### Toxicological properties

</table>

### Action on Spillage and Method of Disposal

Spillage of vial contents should be taken up with absorbent material wetted with an appropriate virucidal agent. Rinse area with a virucidal agent followed by water.
