

Influenza Reagent Influenza Virus Infectious A/Victoria/4897/2022 (H1N1) NIBSC code: 25/116 Instructions for use (Version 1.0, Dated 11/04/2025)

§

1. INTENDED USE

Reagent 25/116 was prepared from A/Victoria/4897/2022 (H1N1), which was processed in 250 μ L volumes as liquid stock. The known passage history for 25/116 is attached.

2. CAUTION

This preparation is not for administration to humans or animals in the human food chain.

The material is not of human or bovine origin. As with all materials of biological origin, this preparation should be regarded as potentially hazardous to health. It should be used and discarded according to your own laboratory's safety procedures. Such safety procedures should include the wearing of protective gloves and avoiding the generation of aerosols. Care should be exercised in opening ampoules or vials, to avoid cuts.

3. UNITAGE

No unitage is assigned to this material.

4. CONTENTS

Country of origin of biological material: United Kingdom. Each ampoule contains 250 μ L (nominal) of infectious influenza virus as allantoic fluid from SPF embryonated hen's eggs.

5. STORAGE

Store in the dark at -70°C or below.

Material type: Liquid – will be shipped according to the storage and shipping conditions of the product

6. DIRECTIONS FOR OPENING

Vials have a screw cap; an internal stopper may also be present. The cap should be removed by turning anti-clockwise. Care should be taken to prevent loss of the contents. Please note: If a stopper is present on removal of the cap, the stopper should remain in the vial or be removed with the cap.

7. USE OF MATERIAL

Ready to use.

8. STABILITY

Reference materials are held at NIBSC within assured, temperature-controlled storage facilities. Reference Materials should be stored on receipt as indicated on the label.

NIBSC follows the policy of WHO with respect to its reference materials.

9. REFERENCES

N/A.

10. ACKNOWLEDGEMENTS

11. FURTHER INFORMATION

Further information can be obtained as follows; This material: enquiries@nibsc.org WHO Biological Standards: http://www.who.int/biologicals/en/ JCTLM Higher order reference materials: http://www.bipm.org/en/committees/jc/jctlm/ Derivation of International Units: http://www.nibsc.org/standardisation/international_standards.aspx Ordering standards from NIBSC: http://www.nibsc.org/products/ordering.aspx NIBSC Terms & Conditions: http://www.nibsc.org/terms_and_conditions.aspx

12. CUSTOMER FEEDBACK

Customers are encouraged to provide feedback on the suitability or use of the material provided or other aspects of our service. Please send any comments to enquiries@nibsc.org

13. CITATION

In all publications, including data sheets, in which this material is referenced, it is important that the preparation's title, its status, the NIBSC code number, and the name and address of NIBSC are cited and cited correctly.

14. MATERIAL SAFETY SHEET

Classification in accordance with Directive 2000/54/EC, Regulation (EC) No 1272/2008: Not applicable or not classified

Physical and Chemical properties						
Physical appearance: Clear liquid		Corrosive:	No			
Stable: Yes		Oxidising:	No			
Hygroscopi No		Irritant:	No			
c:						
Flammable: No		Handling: See caution, Section 2				
Other Live influenza virus						
(specify):						
Toxicological properties						
		lihood of influenza virus; avoid				
		lation				
Effects of ingestion:		established, avoid ingestion				
Effects of skin	Not skin	established, avoid contact with				
absorption:						
Suggested First Aid						
Inhalation: Seek medical advice						
Ingestion: Seek medical advice						
Contact with Wash with copious amounts of water. Seek						
eyes: medical advice						
Contact with Wash	thoro	ughly with wat	er.			
skin:						
Action on Spillage and Method of Disposal						
Spillage of ampoule contents should be taken up with absorbent material wetted with an appropriate virucidal agent.						

absorbent material wetted with an appropriate virucidal agent. Rinse area with an appropriate virucidal agent followed by water.

Absorbent materials used to treat spillage should be treated as biological waste.

15. LIABILITY AND LOSS

In the event that this document is translated into another language, the English language version shall prevail in the event of any inconsistencies between the documents.

Unless expressly stated otherwise by NIBSC, NIBSC's Standard Terms and Conditions for the Supply of Materials (available at http://www.nibsc.org/About_Us/Terms_and_Conditions.aspx or upon request by the Recipient) ("Conditions") apply to the exclusion of all other terms and are hereby incorporated into this document by reference. The Recipient's attention is drawn in particular to the provisions of clause 11 of the Conditions.

16. INFORMATION FOR CUSTOMS USE ONLY			
Country of origin for customs purposes*: United Kingdom			
* Defined as the country where the goods have been			
produced and/or sufficiently processed to be classed as			
originating from the country of supply, for example a change			
of state such as freeze-drying.			
Net weight: 0.25g per vial.			
Toxicity Statement: Non-toxic			
Veterinary certificate or other statement if applicable.			
Attached: No			

A/Victoria/4897/2022 (H1N1) Passage History

Cumulative number of passages	Passage numbers at each stage	Lot	Laboratory
E3	E3	SL10068938	VIDRL, Australia
E4	E3/E1	47420	MHRA, UK
E5	E3/E2	48950	MHRA, UK

*The HA titre of this virus using 0.7% turkey red blood cells is 512. The infectious titre is unknown.

Sterility: no visible contamination was detected in a variety of media (tryptone soya broth, thioglycolate broth, Sabouraud's broth and blood agar plates) after 14 days incubation.

The HA and NA sequence of this virus have been completed and are available upon request.
